How to install, activate and use TT math virtual "CDs"

1. Create TT Class Virtual "CD" Folder Shortcut—locate the TT main folder desktop shortcut—path C:\Users\Public\Documents\TT—and create a desktop shortcut for the teaching textbook (TT) class for your student (Figures 1-3).

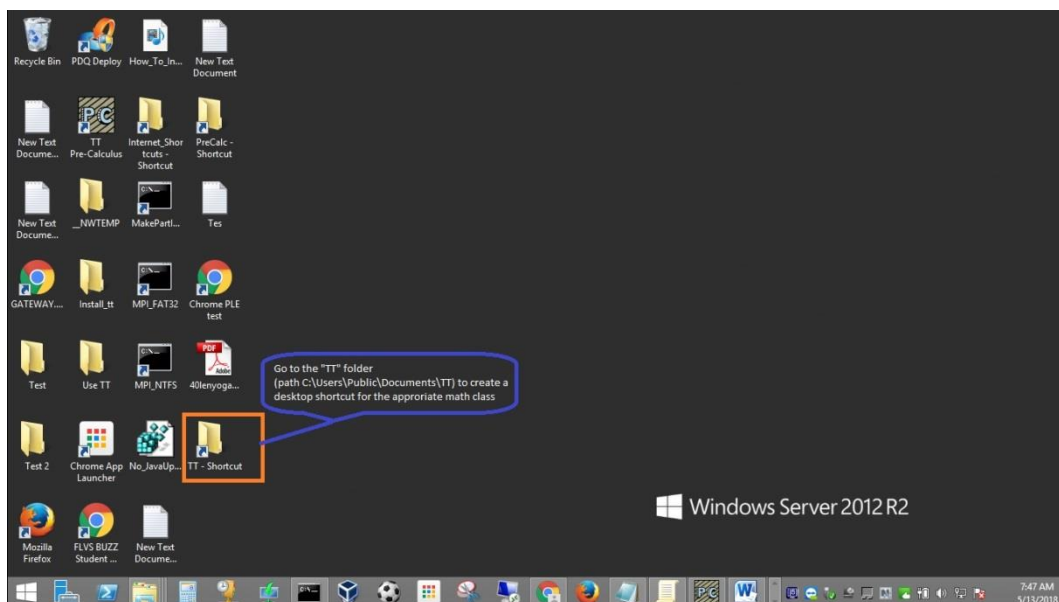

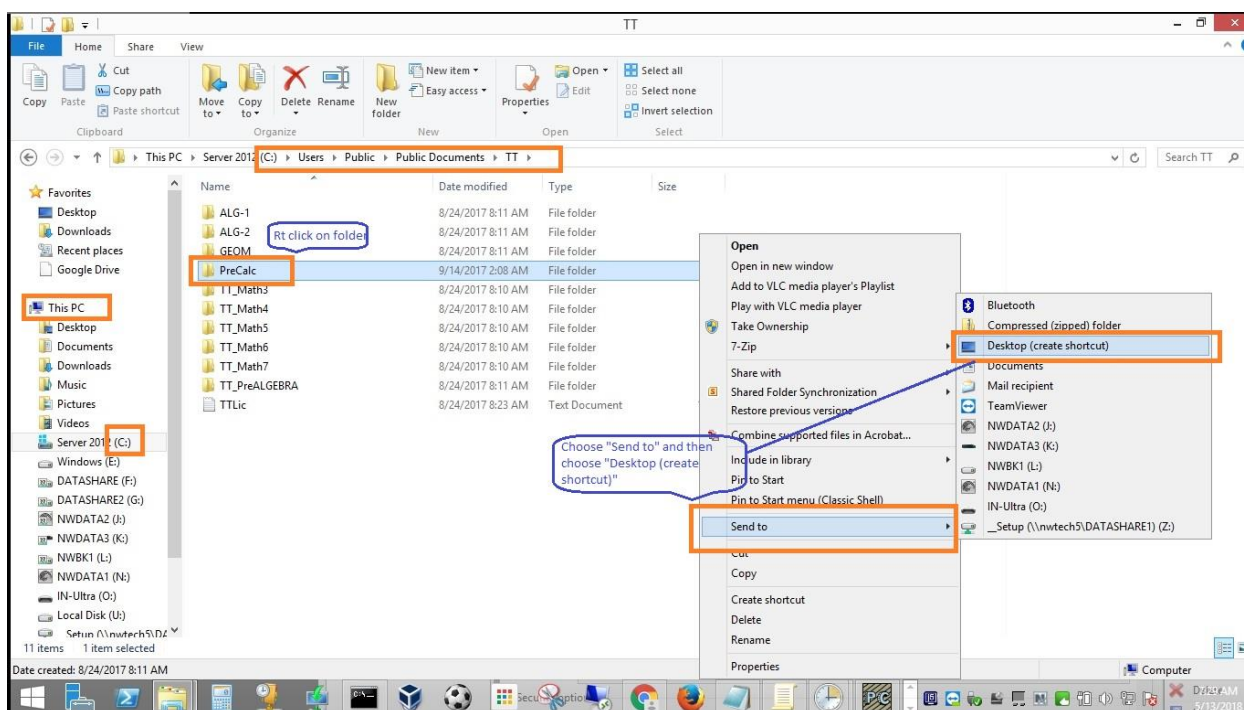

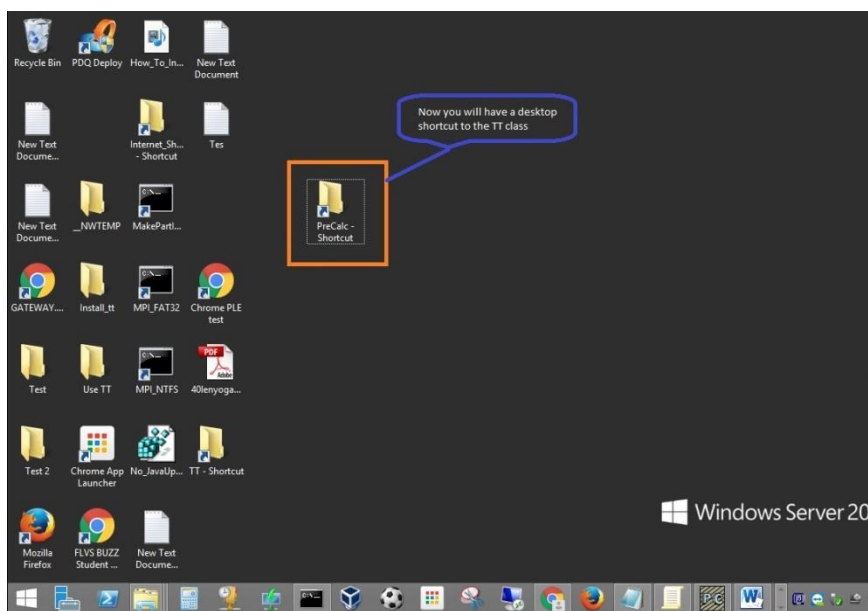

Figure 1

Figure 2

Figure 3

2. Install—Double click to open the class folder where the virtual "CDs" are located (path C:\Users\Public\Documents\TT\) and double click on class name-1 virtual "CD". Choose "Run Autorun.exe" and follow "next>next>finish" steps to install the teaching textbook (TT) class for your student. (figures 4-6).

Figure 6

3. Activate and set up TT class—Open the TT license notepad document located at "C:\Users\Public\Documents\TT\TTLic.txt" to find the correct license to be activated for your

student. Note: SRCS staff will identify, determine and provide you the correct activation code because each TT license can be used for 5 SRCS students. Please activate by entering the information as pictured to help us keep track of each shared license (figures 7-9).
